

Physician Directed Weight Reduction Program

Welcome to Encompass Care's Physician Directed Weight Reduction Program. Congratulations! You have made the decision to change your life and your weight. The weight loss program is the first step toward moving in the right direction for a happier healthier lifestyle. In the next few weeks you will be challenged to reach your individual goals and be supported every step of the way.

Our program begins with a comprehensive initial consultation which includes a complete history, physical examination and BMI calculation. Dr. Bazemore will gather pertinent information on your medical history and current levels of functioning. An EKG (electrocardiogram) and blood work must be done to examine your thyroid levels, lipid and cellular blood panels, insulin and hormone levels before administration of any medication. For patients with out insurance an additional cost for the blood work may apply.

After a through examination of the listed above results, you will receive the New Weight Loss Lypo-M injection and Medication Prescription. Based on an individuals needs Herbal Supplements and or Hormone Replacement Therapy will be recommended for evaluation. Dr. Bazemore will recommend an exercise and complete diet plan based on individual needs. Also you will be provided with a free initial consultation by a professional fitness trainer.

Bi-weekly weigh in's and monthly status checks are required to check progress. Status checks are an important part of your program and include meeting with our staff to check your progress and determine your body mass index. They will review your medications and make supplement suggestions based on your needs. They will also give diet plan education and encouragement as well as identify any weight loss obstacles to ensure your success!

Please be aware that refunds are never issued for the weight reduction Program.
